March 2015 - May 2015
Casablanca, Morocco
• Collaborated with the team and worked along the senior designer.
• Designed the UI and UX of multiple websites.
• Following up with the developers through the design process.

PROJECTS

STACKSYNC | GITHUB | DOCUMENTATION
17th November 2021 v1.0.0
StackSync is a full stack **PHP** mini framework, with an **MVC** structure, custom **API** system with a **Middleware** and **JWT** authentication, components based views, flexible routing, **PSR-4** autoloading. Essential files generation (migrations, seeders, controllers and models) and other operations can be executed through custom commands.

SASS ARCHITECTURE | GITHUB
9th November 2021 v1.0.1
SASS Architecture Template based on the **7-1 architecture** to be used as a starter template for front end project development. Contains various mixins, functions and pre-defined utility classes. All utility classes have a prefix of "ss-" to avoid conflicts.

CENSYNC | GITHUB
3rd July 2021
Platform that handles IT incidents through a ticketing system. Designed for in-house use by employees, admins, managers... depending on the environment. The purpose of such a system is to waste less time in dealing with issues therefore reducing costs and having better communication and traceability.
